- IP telephony
- numbering

INTUG success stories in India

EuroIndia, Delhi 24-26 March 2004

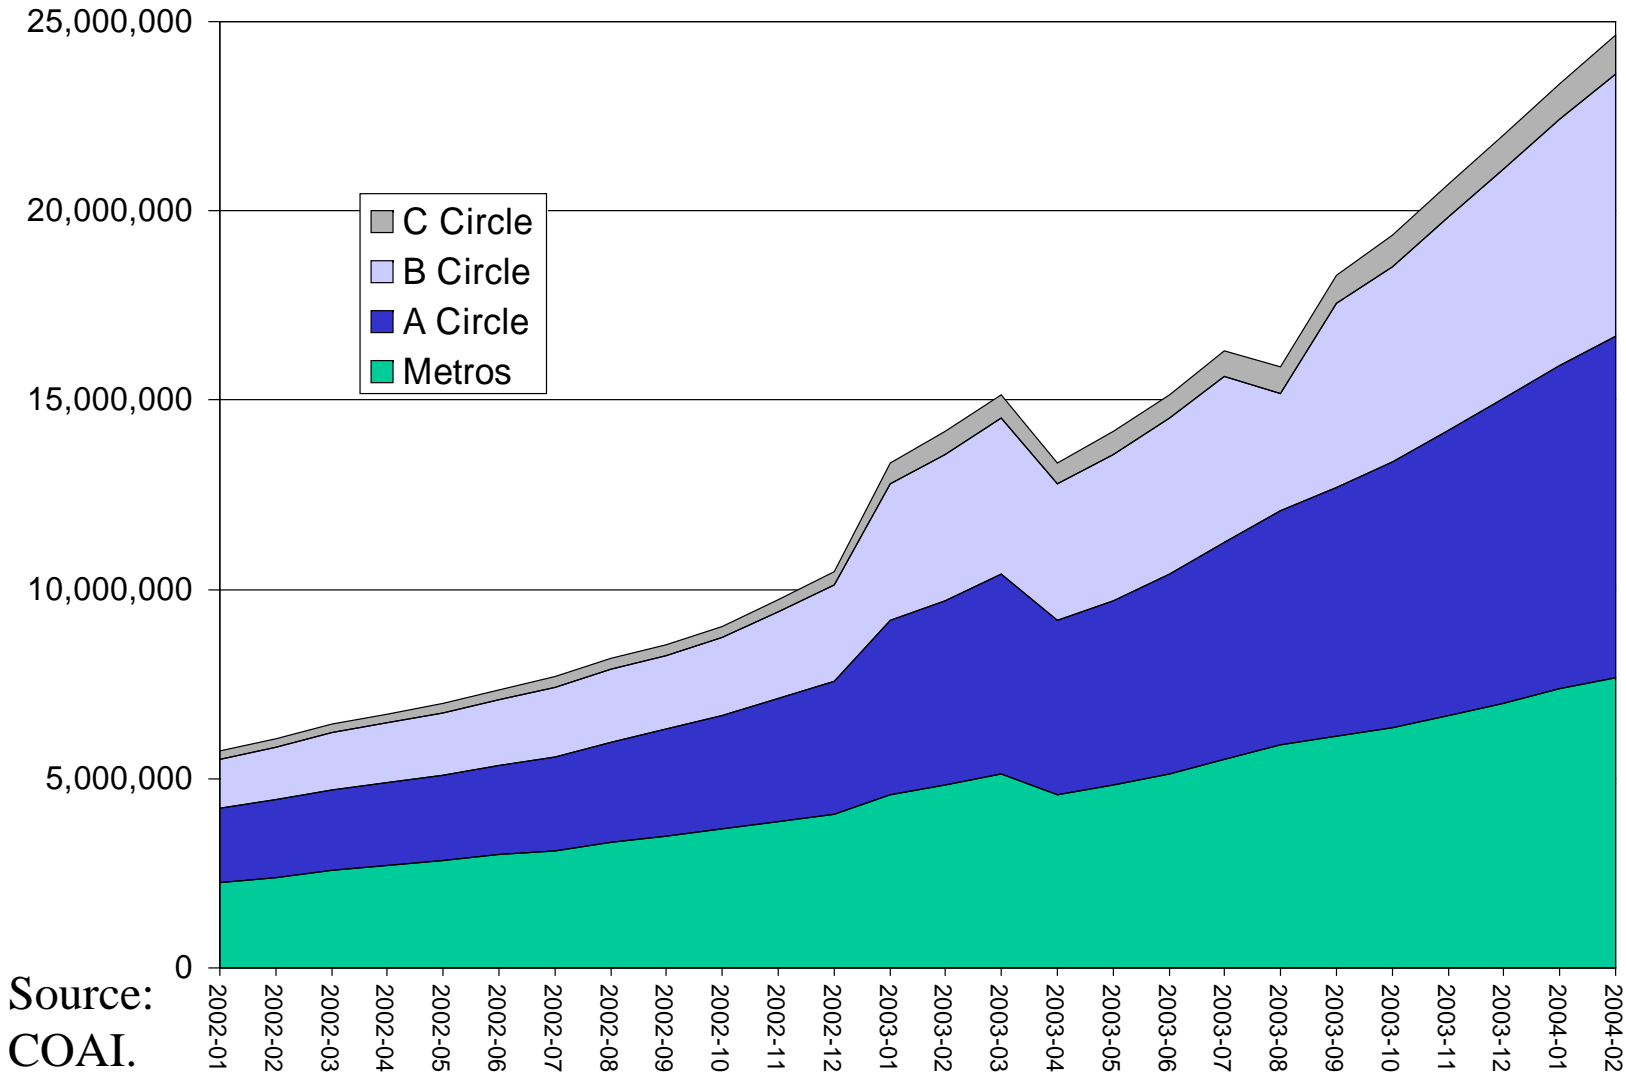

www.INTUG.net

- competition now seen to work
- and can be extended
- mobile
 - full mobility
 - limited mobility
- international
 - outbound telephony
 - some new undersea cables
- outsourcing

INTUG GSM growth

EuroIndia, Delhi 24-26 March 2004

www.INTUG.net

INTUG broadband

EuroIndia, Delhi 24-26 March 2004

www.INTUG.net

- enormous potential
- needs all possible players
- electricity companies
- cable operators
 - could offer an amnesty to report all subscribers in exchange for investment
- triple play

INTUG outsourcing

EuroIndia, Delhi 24-26 March 2004

www.INTUG.net

- call centres
- back office processing
- some recent harsh criticism in developed countries:
 - newspapers and TV
 - politicians
- needs detailed economic analysis
- some real problems with the supporting telecommunications

INTUG some missing pieces

EuroIndia, Delhi 24-26 March 2004

www.INTUG.net

- regulation remains unclear
- market conditions are imbalanced
- very few foreign operators are investing in networks
- there are no Service Level Agreements (SLAs)
- there is no cost-oriented non-discriminatory provision of leased lines

INTUG regulation

EuroIndia, Delhi 24-26 March 2004

www.INTUG.net

- absence of serious WTO commitments
- years of delay with new legislation:
 - General Competition Act
 - Convergence Act?
- slow and unpredictable decision making
- lack of basic controls over dominant market position(s)
- prohibitions on interconnection of:
 - leased lines to leased lines
 - leased lines to PSTN

INTUG market failings

EuroIndia, Delhi 24-26 March 2004
www.INTUG.net

- absence of binding Service Level Agreements (SLAs) with operators
- absence of full international circuits from global carriers with good SLAs
- only half circuit from a global carrier, the other half from an Indian carrier:
 - problems of reliability and delivery time
 - expensive and must be paid for a year in advance

INTUG recommendations

EuroIndia, Delhi 24-26 March 2004

www.INTUG.net

- sustain competition in telephony
 - fixed, limited and full mobility
- achieve competition in broadband
- release spectrum for rural services
- contain the ambitions of the incumbent
- force the incumbents to compete
- sort out leased lines

INTUG conclusions

EuroIndia, Delhi 24-26 March 2004

www.INTUG.net

- impressive progress in the last 2 years
- a potential rival for China
- massive economies of scale
- success in attracting call centres, etc
- but still:
 - unpredictable
 - slow and bureaucratic
 - markets dominated by domestic incumbents

INTUG thank you
